A good man will not kill a swallow, but "swallows" taken too often have killed many a good man.

JOHN MORRISSEY is said to have made a half million by recent speculation in New York Central.

The flies are as much more ferocious this year than last as they are numerous. They are responsible for a good deal of profanity.

WATER MELONS.—O. F. Schonblom has just received a supply of water melons, fresh and nice. They are delicious to the taste. Try them.

THE "Lady Stewart" well, owned by O'Hara & McFadden, at Shamburg, is reported as doing 180 barrels of green oil.

Dana's salary as editor of the New York Sun is \$10,000 a year. We know a great many editors who, if they received \$9,000 per year more than they now do, would be as well paid as Dana.

COOL APPROPRIATION.—The Titusville Herald of this morning contains a communication relative to the appearance of Mr. James B. White, of Rousseville, on the stage with Little Nellie's troupe, at that place. The letter is an item copied from the Record verbatim. Some cheek, that correspondent.

MEETING OF THE DEMOCRATIC CLUB.—There will be a meeting of the Democratic Jackson Association of Petroleum Centre at the American Hotel, on Thursday evening next, Aug. 5th. The password of last quarter will be used.

FOUND.—A memorandum book, containing papers valuable only to the owner, was picked up in Washington street on Sunday last. We should judge it was the property of C. C. Bennet, Shamburg. The owner can have the same by applying to this office, and paying for this notice.

THE PARTY TO-NIGHT.—Those contemplating attending the party this evening, at the Petroleum House, Oil City, will be on hand at the depot for the 7:20 train, to which will be attached a special car for the convenience of the party. In addition to those mentioned yesterday, Miller Farm and Franklin send a liberal delegation of ladies and gentlemen. Spencer's band will furnish music for the occasion.

J. A. LOSKE, MERCHANT TAILOR.—This enterprising merchant, at Titusville, advertises elsewhere at extensive assortment of foreign and domestic cloths and cassimeres, and is prepared to manufacture to order the neatest of suits for men and boys wear. This is one of the finest establishments of its kind in the oil region, and enjoys a reputation second to none in this section of the State. Call on him, corner of Spring and Franklin streets, Titusville.

EXPLANATION.—The management of the Variety Theatre, in Akins' Hall, desire us to state that the penalty to Mr. Clark, one of the performers, for using improper language on the stage on Saturday evening last was dismissed from their company. They desire it distinctly understood that they will not allow improper conduct on the stage, as they intend to carry on an orderly and unobjectionable entertainment.

The programme last evening, was exceedingly entertaining, and those who desire to witness something pleasing will be present this evening.

Those but Americans need apply.—Bonnie and Clyde, the famous "American" boys.

LET THEM DIVIDE UP.—An exchange says the South must have laborers. Why exclusively laborers? Why not additional landowners, who are willing to work as farmers do at the North? Or must there be a race of hewers of wood and drawers of water forever, for the benefit of the large landowners of the South? Let them divide up their plantations into medium-sized farms, and invite northern and European industrial classes to come buy and settle on them. In this way, both capital and labor will soon find their way into the South. One of the orators at the Memphis Convention, said that this is not what the southerners want. They want to monopolize the soil and feel themselves lords of all they survey. This is the aspiration of the old slave oligarchy. But large landed estates will never be tolerated in America, and the section that attempts to encourage them will fall behind in the race of progress and prosperity. Let the old planters take the choice of selling their lands and filling their States with thrifty farmers, or of seeing their plantations become a jungle of weeds and bushes.

The Detroit Free Press tells the following: Ellen Kennedy, the festive youth Windsorite, who is now in jail awaiting trial on a charge of vagrancy, preferred by her father, yesterday demanded a jury, and her case was adjourned to next Tuesday. In reply to the proposal that she might regain her liberty, by returning home, she said: "Not any, Master: I like the States in prison better than Canada at liberty. I'll take my chances on this side."

It may not be generally known that when a person is drowning, if he is taken by the arms from behind, between the elbows and shoulders, he cannot touch the person attempting to save him, and whatever struggles he may make will only assist the person holding him in keeping his head above water for an hour. If seized anywhere else, the probability is that he will clutch the swimmer, and, as is often the case, both will be drowned.

The health of King William of Prussia is visibly declining. Hence the situation of the convalescent Court Bismarck is peculiar. Disliked by the Prussian heir apparent and his wife, distrusted by many Liberals, himself a wilful Conservative with Liberal tendencies thwarted by an old King, his future in relation to the prospect of a new King in Prussia is problematic. His present retirement from affairs is perhaps strategical.

Last week, on the Jacksonville railroad, in Illinois, one of the route agents, in handling the mail, came across a bundle of letters which he pitched across the car to an assistant, in whose hands the bundle exploded, some explosive material having been inclosed in the pack. The letters were entirely destroyed. The agents were not seriously injured.

An Indianapolis lawyer has received the following: "Sir—can I get a divorce, & how soon on grounds that I cannot support my wife have one child, a boy am willing to take care of the boy, and immediately state what it will cost. If it costs \$20 I can pay that much. Direct to box 140 Burlington Vt."

America is estimated to contain over ten millions of square miles, each mile being capable of sustaining three hundred and fifty persons, or four times the present population of the earth. In view of this boundless expanse of territory and resources, what folly to expose the emigration hither of any race or combination of men.

An Englishman, giving his name as William Oliver Lewis, who arrived at New Bedford from Honolulu Monday, on the ship Adeline, was moonstruck on the passage while lying on the deck at night, and became insane, at times being very violent. His case has been brought to the attention of the British Consul in Boston.

On a tombstone in the West is the common inscription, "Prepare to follow me," under which a wag wrote:

"To follow you I'll not consent Until I know which way you went."

Why is a clock the most modest piece of furniture? Because it covers its face with its hands, and runs down its own works.

Why are twice eleven like twice ten? Because twice eleven are twenty-two, and twice ten are twenty, too.

Which is the most ill-used member in the head?—The eye, because it is always under the "lash."

It is said that when a Russian husband neglected to beat his wife a month or two, she began to feel alarmed at his indifference.

"Why should we celebrate Washington's birthday more than mine?" asked a teacher. "Because he never told a lie!" shouted a little boy.

# TELEGRAPH

REPORTED FOR THE DAILY RECORD.

## Afternoon Dispatches.

St. Louis, Aug. 3.

The excitement at Pekin, Ill., in regard to the killing of the Deputy Sheriff of Tazewell county, while attempting to arrest two horse thieves, culminated at two o'clock yesterday morning when a crowd of men from the country burst into the jail, took the leader of the gang out and hung him to a tree. He somehow obtained possession of a clasp knife and cut several of the lynching party, one of them so badly that he probably will not recover. It was thought that some more of the gang would be lynched.

The Dispatch says that a prize fight took place a few days ago at Calt's station about fifteen miles from Erie. The bruisers' names are McGowan and Gillson. Stakes and rounds are not reported.

An Irishman, recommending a cow, said she would give good milk year after year, without having calves, because it ran in the breed, as she came from a cow that never had a calf.

Lizzie Price, the actress, is about to be married to a New York millionaire, William Wintell. She was without money and he was without Price and they have fixed it in this way.

The fly has its uses. He serves to keep bald-headed sinners awake at church on a warm day, so that their unregenerate hearts may be reached by the preached word. It also encourages the spirit of invention in inventive to tax their brains in contriving fly-traps.

The manager of a country theatre looked into the house between the acts, and returned with a face of dismay to the proprietor, with the question of "Why, good gracious, where's the audience?" "Sir" replied the proprietor, without moving a muscle, "he is just now gone to get some beer."

A Paris paper announces the arrival in that city of "Sir Elihu Washburn." When Senator Chandler, with his gorgeous liveries, reaches the French capital, we shall probably hear of "His Serene Highness, Zachary, Grand Duke of Michigan, &c."

The last English mail reports that Miss Kinch, daughter of the Governor of Morpeth jail, Wales, released an interesting convict while her father was away, carried him off in a cab, and married him instantly.

"My dear sir" said a candidate, accosting a sturdy wag on the day of election, "I am very glad to see you." "You needn't be, replied the wag; "I've voted."

Hot Boston brown bread every Tuesday and Friday mornings at A. M. Shultz's Variety Bakery.
